ALC-110-EUR Leakage Current Clamp

- Designed following the product standard for Leakage current clamps IEC/EN61557-13, VDE 0413-13 including high safety rating CAT III 600V
- Ideal for a wide range of applications because of the broad frequency range 15Hz to 1kHz and selectable filters like the Low Pass Filter for appliance measuring
- High resolution and very high accuracy when measuring complex, non-sinusoidal waveforms using TRMS.
